

# PROBUS 66800W

Windows™ based POS system

- ✓ True All-in-One POS
- ✓ Fan-less metal body
- ✓ 58 mm reliable thermal printer
- ✓ Operational battery

## A Truly All In One Design

Probus 66800W combines a high-performance CPU, reliable 58mm thermal printer and a customer screen into one housing. The all-in-one design unclutters retailers' working space, while maintaining a fully functional sales point.

Sleek and compact design with small footprint allows Probus 66800W to blend seamlessly into any store environment. Retailers have more space at the checkout to display high margin merchandise, engage with the customers or for other value-adding activities.

## Performance And Reliability

A choice between different CPUs allows retailers to select the right performance for their needs. Top-notch engineering combined with retail hardened hardware and components ensures that retailers can rely on the Probus 66800W, even with 24/7 operations. Probus 66800W is surprisingly easy to use without compromising on the performance.

## On The Go

Mobility is a key factor for many retailers. A long-lasting battery, small size and wireless connectivity, including the optional 4G/LTE module, allows the POS system to be freely moved around as needed. Exchange of vital data on the go, wireless back-up, open air and outdoors operations – Probus 66800W can be used in almost any sales environment!

### Crystal clear operator display

- 10" multi-touch P-CAP screen
- Daylight readable

### Reliability

- Retail hardened hardware
- Automotive grade components
- Expected life-time: 7+ years
- Designed for 24/7 operations

### 58 mm thermal printer

- Automatic cutter
- Easy paper roll change
